MICROTOUCH® Micro-Thin™ Nitrile

ESSENTIAL SERIES EXAMINATION GLOVES

Nitrile, powder-free examination glove with a thin film formulation for unrestricted tactile sensitivity

This non-sterile glove is made with a thinner formulation to provide excellent tactile sensitivity and dexterity along with exceptional comfort, fit and feel. High quality manufacturing ensures this glove will hold up for a variety of clinical procedures.

KEY FEATURES & BENEFITS

- Excellent tactile sensitivity is ideal for palpating veins a starting IVs
- The textured surface of the glove promotes sure handling of materials and instruments
- 300 gloves per box reduces restocking and reorders

RECOMMENDED FOR

- Brief, low-risk examination procedures
- Enhanced tactile sensitivity and dexterity, especially for delicate procedures
- Environmentally friendly facilities
- Protection from latex Type I allergy in HCW's or patients

MICROTOUCH®
Everyday, Everywhere Protection

MICROTOUCH® premium medical examination gloves are scientifically developed to fully equip and comfortably protect medical professionals so that they have the peace of mind to focus on what matters most: the health and protection of themselves and their patients.
