MICROTOUCH® DENTA-GLOVE® NRL

DENTA-GLOVE® SERIES EXAMINATION GLOVES

Latex, powder-free, examination glove with maximum comfort for a wide range of dental procedures (only available in APAC)

This non-sterile glove is an ideal choice for dental specialists who switch gloves frequently and experience hand fatigue from continuous use.

KEY FEATURES & BENEFITS

- Latex formulation and optimized film thickness offer a high level of elasticity, flexibility. and sensitivity
- Inner chlorinated surface to ensure fast and easy donning
- Tested Safe for Oral Examination, ensuring that the glove is safe for patient contact

Caution: This product contains natural rubber latex which may cause allergic reactions including anaphylactic responses.

*** This product is only available in Asia Pacific (APAC).*

RECOMMENDED FOR

- Enhanced grip in wet environments
- Oral examinations
- Standard, moderate risk examination procedures
