

Our skin sensitive solutions for fragile and compromised skin

Leukoplast®
Wound care in best hands

EBOS
HEALTHCARE

ESSENTIAL TO HEALTH

Fragile skin in best hands

At Leukoplast®, we believe that wound care should be tailored to the patient's needs. Our Leukoplast® skin sensitive products offer the right solution for patients with fragile and compromised skin:

- **Older patients**, an ever-growing group who frequently suffer from fragile skin
- Patients whose skin is **compromised** as a result of disease, medication or long-term treatment
- **Infants** whose skin is not yet fully developed and is therefore **extra sensitive**

Leukoplast® - the professionals' choice

For more than 100 years, professionals have trusted in Leukoplast®'s expertise and high-quality products. To make best use of our outstanding reputation for professional wound care, our well-known Fixomull® products will now be marketed under the umbrella of Leukoplast®.

Skin sensitive benefits for you

Provide better care for your patients

- **Reliable adhesion** with low impact on fragile and compromised skin
- **Atraumatic** removal, protecting skin integrity
- Prevents **skin stripping and tearing**
- **Breathable material** prevents maceration
- Can be **repositioned** without stressing the skin or losing adhesive strength
- **Easily separated** when stuck together
- **Radio-transparent** for rapid x-ray procedures

Skin sensitive benefits for your patients

Comfortable to wear and gentle to remove

- 98 %** confirm an atraumatic removal*
- 93 %** confirm that they had no skin reactions*
- >85 %** rate wearing comfort as good or very good
