Ansell

GAMMEX[®] Latex Moisturizing

SURGICAL GLOVES

Latex, powder-free surgical glove with a built-in moisturizer

KEY FEATURES AND BENEFITS:

- Contains glycerol and dimethicone as moisturizing agents to help retain moisture and rehydrate skin.
- Micro-textured under-surface of fingers and palm for optimal grip in dry and damp conditions
- Made with Ansell's unique anatomic formers to enhance comfort and fit to help reduce hand fatigue
- Additional cleaning processes ensure low residues of both latex proteins and chemical accelerators to minimize the risk of developing latex Type I and chemical Type IV allergies and skin sensitivities

CAUTION: Safe use of these gloves by latex-sensitized individuals has not been established. This product contains natural rubber latex, which may cause allergic reactions.

Recommended For

- Damp donning
- Extra comfort during long, sustained procedures
- Use as an underglove when double gloving
